RESOLVED, that certified copies of this resolution be forwarded to the Director of Real Property Tax Services.

Recommendation to the Erie County Legislature Finance & Management Committee in the matter of the Application for a Correction of Error filed under Real Property Tax Law Section 554 for Trinity Park Housing Development Corporation.

Property Location: 710 Quaker Rd
Town of Aurora, NY

February 11, 2016

I am recommending the denial of correction of error application filed February 5, 2015 for the purpose of correcting the 2016 Town and County Tax roll.

The above referenced property was provided an exemption under 581-a, which gives the owners of residential rental properties, subject to regulatory agreements restricting occupancy in accordance with an income test, the right to have their properties valued, for real property taxation purposes, by the "capitalization of income" method.

This program is regulated by the State Division of Housing and Community Renewal [DHCR]

The subject property was under a 15 year Payment In Lieu of Tax (PILOT) agreement which expired in 2013, therefore the town assessor moved the parcel into the fully taxable section of the roll as of March 1, 2014.

DHCR rules state that the property owner must provide the assessor “with a copy of all applicable regulatory agreements and, *on an annual basis*, income documentation *prior to the taxable status date*” (emphasis added) (9 NYCRR §2656.3).

The company did provide the documents as required.

The applicable DHCR regulation (9 NYCRR §2656.3) clearly states that “[t]he property owner(s) shall provide the local assessing unit with a copy of all applicable regulatory agreements and, on an annual basis, income documentation prior to the taxable status date.” If the assessor does not receive the required regulatory agreement(s) and income documentation on or before taxable status date, the assessor may reasonably assume that the rental residential property is not eligible for §581-a, and value the property as a market rate property. An owner who is dissatisfied with the tentative assessment placed on a property would of course have the normal recourse of administrative review before the municipal board of assessment review.

Company provided proof that the assessment was reduced, based on the fact that the company did not file for administrative review before the municipal board of assessment review, the new assessment stands.
